A quick guide to Bajaj Allianz Fund Performance

The much anticipated rate cut by the RBI in January 2015 denotes a change in the policy environment and a lower interest regime could help kick start the investment cycle. At the global level, crude oil prices are in a consolidation phase and the lower crude oil price environment, together with benign inflation and a softer interest rate environment bodes well for the economy. India continues to be well placed for an economic revival, with a strong leadership at the helm and supportive macro-economic indicators.

Bajaj Allianz Life Insurance Co. Ltd.
