Macro economic Update

- The Goods and Services Tax Council (GST) kept tax on COVID-19 vaccines and medical supplies unchanged. However, the council exempted duty on import of a medicine used for treatment of black fungus. The GST council also to provide relief to small tax players recommended an Amnesty Scheme to reduce late fee payable. The move is expected to provide relief to small tax players who constitute 89% of GST players.
- Government data showed that India's Foreign Direct Investment (FDI) equity inflows during the period from Apr 2020 to Mar 2021 stood at \$59.64 billion which corresponds to a growth of 19%. U.S. replaced Mauritius as the second largest source of FDI into India during FY21 with inflows of \$13.82 billion. Singapore was the top source of FDI equity into the country for the third consecutive fiscal at \$17.42 billion.
- The Reserve Bank of India stated that its monetary policy will continue to support growth until it recovers on a long-term basis. The impact of the second wave of COVID-19 infections, according to the central bank, will be limited to the June quarter, with some overflow into July.

Domestic Equity Market Update

- Indian equity markets settled for the week in the green with Nifty 50 touching record highs on the last trading session of the week. Buying interest was largely led by steady decline of daily COVID-19 cases in India.
- The consistent fall in coronavirus cases raised optimism over gradual re-opening of economy, though there are restrictions in selected local areas to control the spread of virus.
- Optimism over next set of government stimulus measures to minimise the economic impact of the second wave coupled with declining COVID cases buoyed market sentiments.
- Global cues also provided additional support as a host of central bank policymakers across the world pledged to keep monetary policy loose despite recent signs of an uptick in global inflation.
- Nonetheless, gains were restricted with one of the major global rating agencies stating that India's escalating second wave of coronavirus infections heightened downside risks to GDP and posed a significant contagion risk to other geographies.
- On the BSE sectoral front, majority of the indices closed in the green. S&P BSE Realty was the top gainer, up 3.69%, followed by S&P BSE IT and S&P BSE Teck, which rose 3.38% and 2.86%, respectively. Real estate stocks rallied on hopes of an increase in demand for completed products and expectations of robust revenue collection in 2021.
- Meanwhile, S&P BSE Power, S&P BSE Metal and S&P BSE Healthcare were the only losers down, 1.50%, 0.97% and 0.23%, respectively.
