

September 2021

Even though the equity market rally in the last one and half years is driven by strong liquidity and expansion in valuation multiples, earnings growth have also contributed to the rally. We expect that corporate profitability cycle (Corporate Profits as % of GDP) is on an uptrend after moderating for more than a decade, and expect strong Nifty earnings growth of around 25% and 20% in FY22 and FY23 respectively.

LIFE GOALS. DONE.
