## A quick guide to Bajaj Allianz Fund Performance

August 2024

India's GDP growth in Q1FY25 moderated to 6.7% from 7.8% in Q4Y24 on a YoY basis. The slower than expected growth was attributed to lower government spending, which declined 0.2% after increasing by 0.9% in Q4FY24 given the reduction of spending due to elections. On the other hand, investment picked up and registered a robust growth of 7.5% from 6.5% in Q4FY24. Both exports and consumption spending also recorded strong growth of 8.7% (8.1% in Q4) and 7.4% (4% in Q4) respectively. Imports recorded a sluggish growth of 4.4% (8.3% in Q4) on account of growing geopolitical tensions.
